

AA Roadmap for Organizations

DESCRIPTION: Our AA Roadmap plan (Awareness, Acceptance, Actions) addresses one of the biggest challenges of any organization – keeping your employees fully engaged and informed. Studies tell us that when employees clearly understand their role, 91% will work toward the overall success of the company.

The DISC® self-assessment and tools used in this program reduce common areas of conflict and create an atmosphere of collaboration. The outcome is a highly motivated organization with improved productivity resulting in marketplace goal achievement.

DISC® was created by communication experts and has been implemented internationally for over 40 years.

OBJECTIVES:

- Identify your preferred style and its impact on the organization
- Develop easy-to-use tools which promote business success
- Use effective techniques resulting in a cohesive, strong environment

PROGRAM LEADER: The programs are taught by communications expert, Linda Williams, MA, who is also an experienced DISC® facilitator. Linda has 30+ years working in the education field in Curriculum and Instruction and holds an MA in Education. For the last 10+ years Linda has been working independently consulting to small to mid-size businesses in the use of communication skills and tools to improve employee engagement, customer relationships and business sales.

Communication Strategies for Better Outcomes

In just a few hours you will develop and apply skills that drive your organization forward.
